== GitHub Feature Branch Workflow - Start to Finish ==

REM Step 0: Navigate to your project folder cd C:\Users\Lenovo\Desktop\git-prac3

REM Step 1: Create and switch to a feature branch git checkout -b feature/greet-user

REM Step 2: Edit app.py REM Open app.py in your preferred editor and add: REM name = input("Enter your name: ") REM print(f"Hello, {name}!") REM Save the file after editing

REM Step 3: Stage and commit changes git add app.py git commit -m "Add user greeting feature"

REM Step 4: Push feature branch to GitHub git push -u origin feature/greet-user

REM Step 5: Create a Pull Request (PR) on GitHub REM 1. Go to your repository in the browser REM 2. Click 'Pull Requests' tab → 'New pull request' REM 3. Base branch: main REM 4. Compare branch: feature/greet-user REM 5. Add title and optional description REM 6. Click 'Create pull request'

REM Step 6: Merge the Pull Request REM 1. Click 'Merge pull request' button on PR page REM 2. Click 'Confirm merge'

REM Step 7: Delete feature branch (optional) REM Click 'Delete branch' on GitHub after merging

REM Step 8: Update local main branch git checkout main git pull origin main

== End of Workflow ==
